

Magento German Language Pack User Guide

Changing backend language

After selecting *System > Permissions > All Users* the users of the admin panel can be opened for editing separately and switched to German language using the field *Interface Locale*. After their next login they find themselves in a German Backend.

Changing frontend language

To change the language of the shop fronted generally or for a specific store view to German after navigating to *Stores > Settings > Configuration* the scope can be defined in the upper left corner. Afterwards in *General > General > Locale Options* the *Use Default* checkbox can be deactivated for the field *Locale* in which the language can be changed to German.
